Project Related Important Instruction

1. Only research-based projects will be accepted and approved.
2. Synopsis/progress submission and presentation will be finalized only after the approval of the respective mentor. So, students are required to contact mentor prior to every submission. Students will only be allowed to present and submit the synopsis only if it has been approved by your project mentor in advance.
3. Scheduled interactions/weekly progress reports with the respective project mentor will determine your score at the end. Every week, a weekly progress proforma describing the work progress should be filled by the students and signed by the mentor.
4. Students are required to be physically present for every project presentation. No online presentation will be allowed.
5. All reports submitted should be duly approved and signed by the respective mentors. The reports should be submitted on the day of presentation.
6. Every project presentation is evaluated on the basis of the following criteria:
   a. Concept Clarity
   b. Literature Survey
   c. Project Plan, Progress & execution as per finalized objectives
   d. Presentation Skill
7. Students are required to prepare at least one research paper along with your project report. The final paper must be submitted to the mentor before the final presentation/submission of the project report.

Note: The marks evaluation will be distributed equally for each presentation & submission. At the end average of all the presentation & submission will be considered as final marks.

Synopsis Format

1. The synopsis report in "MS Word" should include following:
      (i) Abstract
      (ii) Introduction
      (iii) Literature Survey
      (iv) Objectives
